## EDUCATION

**BACHELOR OF LAWS**

Alexandria University

2018

## LANGUAGE

Arabic - English

## ABOUT ME

As a frontend designer, my job is to design and implement the user interface (UI).

My work requires a deep understanding of the requirements of the users and the business goals of the site.

Design and develop an interactive and attractive user interface that provides an easy and enjoyable user experience.

My work will require HTML, CSS and JavaScript technologies and use a framework such as React to improve user experience and facilitate interaction with the content and various features of the site.

## EXPERIENCE

### FRONTEND DEVELOPER

Robotics Company          2020 - 2022

- Developed and maintained responsive websites using HTML5, CSS, Sass, JS, jQuery, Bootstrap, and React.js.
- Collaborated with back-end developers to integrate front-end code with server-side functionality.
- Optimized website performance by reducing load times and minimizing HTTP requests.
- Conducted code reviews and provided feedback to team members to ensure code quality and maintainability.
- Participated in agile development process and contributed to sprint planning and retrospectives.

## PROJECTS
